

June 11, 1999

This index runs from May 29, 1874 through May 11, 1882. I have attempted to index Cumberland County residents with either their profession and/or some bit of descriptive data such as birth, death, marriage, or their residence. Initially I listed some of the data in the "Residence" column, then determined that this was not presenting as much data as would be useful to the researcher. Therefore I started listing descriptive data in the name column where space was available and reserved the residence column for residence only. Initially I also listed last name followed with "_____" where the given name was not available. This, I decided was non productive because of the uncertainty associated with such a listing. Following this determination I, for the most part, listed only individuals with at least initials for given names.

Since this was a period of great emigration to the West, I have attempted, where possible, to list those individuals who left central Pennsylvania for the West or other locales.

Column Descriptions

NAME - This of course identifies the individual. Where available, I have made special effort to list married ladies by both married and maiden names.

PAP - This identifies the paper. "VS" identifies the Carlisle Valley Sentinel.

COL - In contemporary papers this column identifies the type column as described below. However in this index this column identifies the page number of the information.

W - identifies WEDDING and/or ANNIVERSARY columns.

A - identifies ANNIVERSARY columns.

O - identifies OBITUARY columns.

B - identifies BIRTH columns.

D - identifies DIVORCE columns.

M - identifies MARRIAGE LICENSE columns.

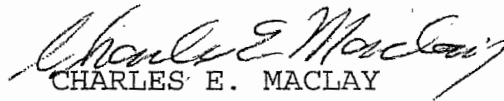

DATE OF PAPER - This is the date the paper was published, not the date of the event.

ADDRESS - In most cases a place of residence is given for individuals listed in these announcements. Where given I have included it in this index. In certain cases I have assumed the place of residence of a deceased spouse to be the same as that of the living member.

This document was formatted and printed on acid free, archival paper.

This index with accompanying disks containing the file is presented to the Cumberland County Historical Society to use for such purposes as they see fit, including, but not limited to publishing in some form (printed or otherwise) for sale to provide monies for the Society. Whenever used for any purpose (other than normal reference) I request an appropriate credit or acknowledgement be given to my efforts. I also request such restrictions as are possible be placed on this material to prevent "ANY INDIVIDUAL" or "PROFIT ORIENTED CORPORATION" from profiting from my efforts unless the Historical Society is paid for such use.

The diskette accompanying this document is a file of the data base prepared on an IBM clone PC in Word Perfect format. The file contains 55,178 records.
